2 hours

Finish baseboards
kick strips and
edges according to
clients' drawings

SUSTAINABLE DEVELOPMENT

**Use of organic and
recycling products**

**The thermoformed
polyester resin**

M2 fire rated.
It is extremely resistant
to all corrosive and /
or dyes and BioClean
approved. This resin
is the only product on
the market that is fully
recyclable

Bamboo,
a renewable resource
with a neutral carbon
footprint, has no
detectable VOC
(EO classification), is
exceptionally moisture
resistant and of course
recyclable

**Limitation of
the use of water
resources** thanks
to taps with
regulated flow

**Member of a
recycling program**
for the waste life
stage of professional
furniture

**French manufacturing
in Normandy**
with local and national
subcontractors and
partners
